[Customize Installation](#)

7. It will prompt to restart your device to finish the install
8. Once installed, click on “Launch”. For future use an icon is placed on your desktop.

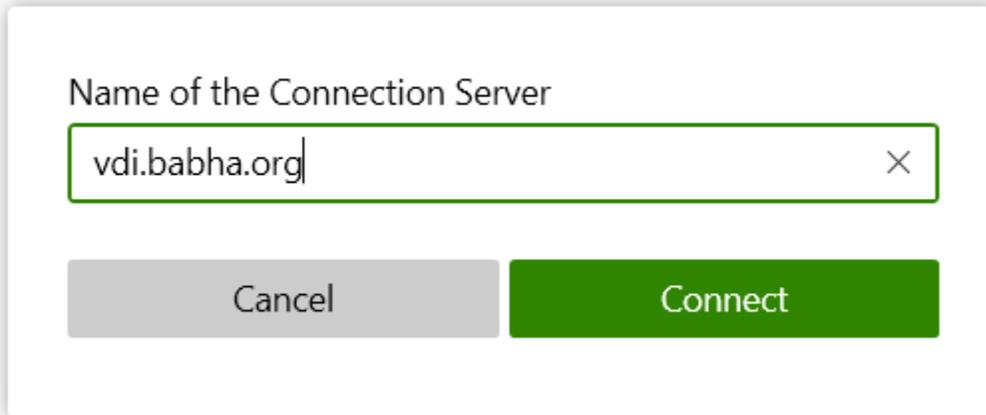

Log into Virtual Desktop (VDI)

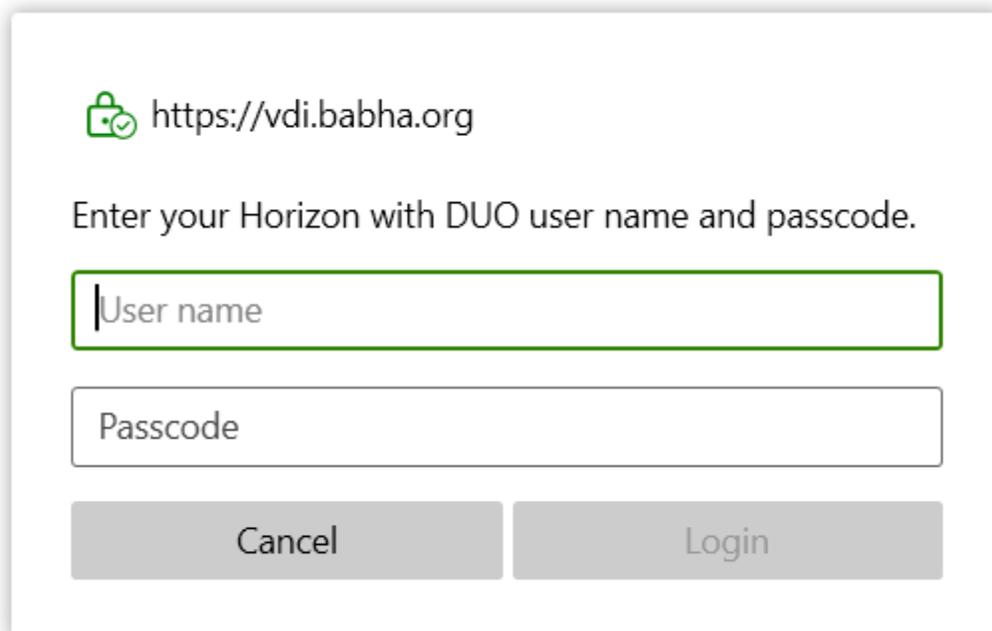

1. Double-click on the VMware Horizon View Client. (if you have not already)

2. Click on Add Server and enter **vdi.babha.org** for the server name. – then click connect

The screenshot shows a dialog box titled "Name of the Connection Server". It features a text input field containing "vdi.babha.org" with a small 'x' icon to its right. Below the input field are two buttons: a grey "Cancel" button and a green "Connect" button.

3. Enter your VDI username and password that have been provided to you

The screenshot shows a login dialog box for "https://vdi.babha.org". It includes a green lock icon and a checkmark. The text "Enter your Horizon with DUO user name and passcode." is displayed above two input fields: "User name" and "Passcode". At the bottom, there are two buttons: a grey "Cancel" button and a grey "Login" button.

4. Enter your DUO two-factor authentication
5. Double-click on the session available to you.
6. You will then be logged into your VDI session.
